UDART

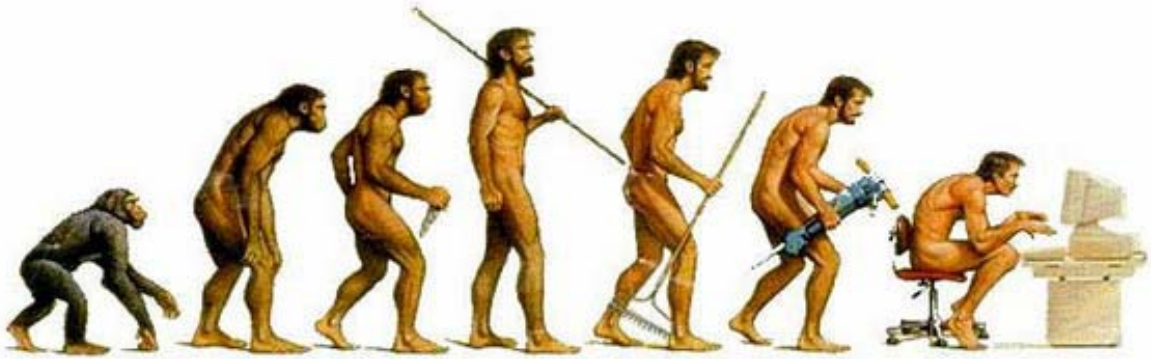
(Utah Data, Analysis, and Reporting Tool)

Whitney Johnson, MPH

Utah Cancer Control Program

Evolution

- Partnership between Utah Local Association of Community Health Education Specialists (ULACHES) and BHP
- Standardized data collection
- Developed as access database and progressed to online reporting system



UDART

Benefits

- Easy access with immediate two-way communication
- Data are more useful and comparable
- Years of data is stored and accessible
- Can run analysis across programs

Progress:	8 women screened at clinic today 2 UCCP/6 CDC 7 mammography vouchers given, 2 colorectal kits given. All received appropriate education, given						

Records 11 to 14 of 14

Example

http://health.utah.gov/udart/index.jsp

Quality Review

- Outside contractor reviewed the program
- Strengths included:
  - Convenience
  - Low cost
  - Used across programs

Future Steps

- Redo homepage
- More explanation and user help built into the website
- Continue to develop capacity in LHDs
